April 15, 2010

Dear Sholeen,

On behalf of the Harvard East Asia Program at Boston Children's Museum, I would like to thank you for your contribution to our professional development seminar, Children's Life in China, last Saturday, April 10, 2010. Your presentation of Kingka was a wonderful introduction to Chinese language learning. Many of the educators participating in the seminar were elementary and middle school teachers, not language teachers. Having this opportunity to learn more about Chinese characters and Kingka as a tool to include in classroom instruction was very valuable. There were many evaluation comments noting how pleased the teachers were with this workshop and that they were interested in purchasing Kingka to use with their classes. We are thrilled that you were a part of the day!

Boston Children's Museum has been a leader in professional development for educators in early childhood, elementary and after school for over 30 years. The museum is pleased to continue this tradition by providing opportunities to introduce new resources and content rich materials to educators at all levels. Thank you again for agreeing to introduce Kingka; it was a terrific addition to the program.

We look forward to working with you again in the future. Wishing you all the best!

Yours,

Rachel Farkas  
Asia Program Senior Educator
